**Subject:** Fwd: Gold King Mine cleanup

Please call Eric to catch up 7027982332. ORD is not doing our own thing here. This is an Agency wide response. ORD is doing a bit of helping as it can.

**Subject:** Gold King Mine cleanup

Sorry to bother you!

Several members of the ORD quality assurance (QA) community asked me about our involvement in the subject cleanup effort. I responded that the Center was not involved with or informed about the incident. Eric Koglin name was mentioned during my conversations. I was embarrassed to find out that we were involved in the cleanup.

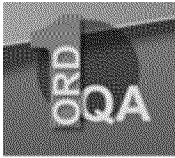

Since the Administrator stated that QC/QA will be included, the QA community is trying to find out which LCO has the lead and how to proceed.

Please let me know how we can help.
